Dear Miss Carbine,

Your letter of the 4th does end my concern on that matter and I do thank you for it and your promptness. It is very fair.

Meanwhile, should LOOK's attitude toward this subject and the entire field of press freedom, which may not be as unrelated in official actions as it might seem, I would welcome your inspection of what I have.

This includes official evidence denied even the Warren Commission and a complete written accounting of how I got it, signed by the proper officials. Nothing I have was obtained improperly.

Sincerely,

Harold Weisberg
